BORDER PARLEYS WITHOUT RESULT

Conferees Unable to Reach an Agreement.

ISSUE SIGNED STATEMENT

Generals Scott, Funston and Obregon Decide to Refer Disputed Points Back to Their Respective Governments to Be Adjusted Through Diplomacy.

El Paso, Tex., May 12.—After almost two weeks of discussion the conferences of Generals Scott, Funston and Obregon, over American troop dispositions in Mexico, came to an end without any agreement being reached. The entire matter was referred back to the American and de facto governments to be settled through diplomatic channels.

The situation is almost exactly what it was before the conferences began.

The Mexican government still insists on the withdrawal of General Pershing's columns on a certain date and wants that date to be soon.

It was claimed that General Obregon had been willing to make concessions to reach an agreement with the American conferees, but that he was overruled by the first chief, Venustiano Carranza, and his advisers.

The Mexican conferees' manner was abrupt and vexed, but General Funston smiled cheerfully as he bade goodby. General Funston then re-entered the car and Colonel Robert E. Lee Michie, aide to General Scott, came out and distributed copies of the following statement to the waiting newspaper men:

Does Not Mean Rupture.

"We wish to announce that after several conferences, marked throughout with conspicuous courtesy and good will, in which conferees mutual impressions were exchanged and information was collected on the military situation on the frontier, it was agreed by the conferees to suspend the conferences and report back to their governments, in order that they may be able, through their respective foreign departments, to conclude this matter; and that the ending of these conferences does not mean, in any way, a rupture of the good relations of friendship between the conferees nor between the respective governments."

The statement was signed by Obregon, Scott and Funston.

It was pointed out that the result of the various meetings in El Paso does not mean that there is any immediate threat of a rupture between the United States and Mexico.

So far as the United States is concerned, it is said, its army in the Mexican state of Chihuahua will remain practically inactive.

The only break that can possibly come would follow an attack by Carranza troops upon American troops.

TO PROTECT BORDER TOWNS

Additional Troops Will Probably Be Sent South.

Washington, May 12.—It seemed likely that diplomatic conversations between the United States and the de facto government in Mexico, as suggested by Generals Scott, Funston and Obregon, will not begin for several days.

A study of General Scott's reports undoubtedly will precede them.

In the meantime steps taken to give greater protection to the border towns will be carried out and if necessary additional national guardsmen and provisional regiments of coast artillery will be ordered to the line.

The stumbling block at El Paso appears to have been the determination of General Carranza to have set an early date by which all American troops would be withdrawn from Mexico.

Another American Killed.

Brownsville, Tex., May 12.—Curtis Bayles, an American farmer, was shot and killed a short distance from his home near Mercedes, Tex., by a small band of Mexicans who succeeded in escaping, presumably to the Mexican side of the Rio Grande. Thirty cavalrymen and a citizens' posse are in pursuit.

SPAIN TO REMAIN NEUTRAL

King Alfonso Says People Are Opposed to Entering Conflict.

Madrid, May 12.—When the Spanish parliament opened King Alfonso announced that Spain is disposed to remain neutral in the world war. The speech of the king was listened to by the diplomats of belligerent powers.

"In these grave moments," King Alfonso said, "Spain is disposed to continue neutral as the unanimous expression of the national will."

Governor Ferguson of Texas has ordered a detachment of state rangers to proceed to Glen Springs to act as scouts to protect settlements from raids by Mexicans.

ROOSEVELT STANDS BY CHICAGO SPEECH

Oyster Bay, N. Y., May 12.—In a letter to Guy Emerson, national secretary of the Roosevelt Nonpartisan league, given out here, Colonel Theodore Roosevelt endorsed the work of that organization and referred to his candidacy, which is one of the objects of the league.

The letter was written in response to a request for a statement. "As you know," Colonel Roosevelt said, in his letter, "I have refused to endorse the use of my name in the primaries or in any way to enter any factional contest which has for its object my nomination in Chicago in June."

"You know also that I have stated emphatically that it would be unwise to nominate me unless with the full understanding that such nomination means the hearty endorsement of the principles for which I stand and stated in my Chicago speech."

GUARD DOUBLED ON FEDERAL BUILDING.
Washington, May 12.—The guard about the agricultural department was doubled when local newspapers received a second anonymous letter saying the main building is to be blown up. It is believed a crank is responsible, but no chances are being taken.

BADGER DEMOCRATS UNITE FOR WILSON

Milwaukee, May 12.—Delegates from Wisconsin to the national Democratic convention in St. Louis organized by electing Joseph E. Martin of Green Bay national committeeman, by unanimous vote, and choosing Judge John C. Karel of Milwaukee as chairman of the delegation.

William F. Wolfe of La Crosse was agreed upon to make the speech seconding the nomination of President Wilson.

The secretary of the delegation was instructed to send telegrams to President Wilson and Senator Hastings expressing fealty. At the meeting of the state central committee, Otto A. La Ruelle, Elkhart, was elected chairman of the state central committee to succeed Joseph E. Martin.

POULTRY COMBINE CHARGED

New York Food Commissioner Says People Are Cheated of \$7,000,000.

New York, May 12.—John J. Dillon, state commissioner of food and markets, who is conducting an investigation into the live poultry business here, has summoned representatives of the board of health and of the district attorney's office to attend the hearings. The commissioner claims to have evidence indicating that prices are arbitrarily fixed by a combination of poultry dealers. He asserts also that the system of "over-cropping" has compelled New York consumers to pay about \$7,000,000 within a year for 28,000,000 pounds of bran, grit, gravel and decayed food.

SERIOUS SITUATION IN MEXICO RESULT CONFERENCE FAILURE

Four Year Term for County Officers Held Constitutional--300 Dutch Sailors Mutiny

10,000 Carranzistas Ordered into Bailiwicks of Bandits to Prove Carranza can Control

Mexican Situation is Most Serious

(By United Press)
Washington, May 12.—The situation is now more serious than at any time since the United States forces entered Mexico on account of the failure of the El Paso conference, and serious cabinet consideration is being given the condition. Secretary Baker has directed Gen. Scott to return to Washington and Gen. Funston to return to San Antonio.

10,000 Carranzistas to Bandit Country

(By United Press)
El Paso, Texas, May 12.—10,000 Carranzistas have been ordered into the bailiwick of the bandits in Northern Mexico to prove before the negotiations begin at Washington that Carranza is able to control the situation. The men go to the Mexican regions opposite the Big Bend country in Texas and the Parral region. Gen. Pershing's forces have just been withdrawn from the vicinity of Parral, the move is made to condense the expeditionary forces for defensive purposes.

Mexican Situation Reverts Washington

(By United Press)
El Paso, May 12.—The Mexican situation has reverted to Washington following the failure to come to an agreement at the El Paso conferences.

Dutch Sailors Mutiny

(By United Press)
Amsterdam, May 12.—The newspapers report that 300 Dutch sailors aboard the battleship at Java mutinied and paraded the streets. Sixty of the mutineers were captured and punished, the others fled.

American Forces Move to New Base

(By United Press)
Columbus, May 12.—The withdrawal of the advanced American troops from San Antonio, Mexico, is in full swing, and motor truck trains are assembling. Although Colonia Dublan is mentioned for the new extreme base it is thought the contraction will stop at Namiquipa, and the defensive works there are being rushed.

Put Question Squarely

(By United Press)
Washington, May 12.—The United States government has put squarely up to Carranza the burden of further negotiations in a reply to his request that the negotiations be postponed until Ambassador Arredondo takes up the question. Even then the reply will be that there will be no withdrawal until the border is safe from incursion.

Premier Asquith Arrives Ireland

(By United Press)
London, May 12.—Premier Asquith arrived in Ireland to take charge of the situation there which is admitted to be growing serious. He immediately ordered the postponement of further court martials pending the outcome of conferences to be held, and met several of the military and civil authorities.

Charges Brandies Attempted Merger

(By United Press)
Washington, May 12.—The charges that Judge Brandeis was involved in an attempt to merge the United Cigar stores and the Riker Hegman drug stores featured the hearings when the senate judiciary committee reopened. The merger failed.

French Statement on Peace Proposal

(By United Press)
Washington, May 12.—"France is no more set against peace than her Allies, but for the present we turn a deaf ear against peace talk," said a diplomat of the French embassy.

"The French embassy does not make secret Germany's willingness to talk peace, which the latter states is on the terms she suggests and of standing pat on those enunciated by Hollweg in the reichstag."

The interview had its suggestion in the peace hint conveyed in Germany's latest note to the United States.

The French official said it was plain that Germany hoped the United States would bring about peace.

Bismarck Business Man Enjoins North Dakota Secretary.

Bismarck, N. D., May 12.—Suit to test the validity of petitions proposing the removal of the state capital from Bismarck to New Rockford was started in district court at Bismarck by A. C. Hineckley, a Bismarck business man. The action is in the form of an injunction against Secretary of State Thomas Hall. It is pleaded that the petitions are insufficient.

Four Year Term is Constitutional

(By United Press)
St. Paul, May 12.—The supreme court has decided that the four year term law for county officers is constitutional, which means that the election of county officers will occur in 1918 and not this year. The decision was unanimous. Immediately after the decision was announced Secretary of State Schmahl asked the attorney general for an opinion as to when the terms of 30 county officers appointed in the state to fill the unexpired terms since the law becomes effective expire.

AUSTRIAN PASSENGER LINER TORPEDOED, SUNK, UNWARNED

(By United Press)
Berlin, May 12.—The enemy submarine torpedoed and sunk the Austrian liner Dubrovnik in the Adriatic without warning. The liner was unarmed.

(Rome yesterday reported a French submarine had torpedoed an Austrian transport in the Adriatic, and it is possible that both refer to the same vessel.)

Washington, May 12.—Unless Americans were on board the Austrian passenger liner Dubrovnik, reported torpedoed, the United States will make no protest.

DILLON SCORES BRITISH POLICY

Irish Leader Denounces Execution of Rebels.

BITTER SPEECH IN COMMONS

Premier Asquith Has Gone to Dublin for a Personal Investigation of the Situation and May Give New Orders to General Sir John Maxwell.

London, May 12.—The most dangerous factor in Ireland's situation, which had been recognized since the brief rising flashed in the pan, was that the punishment of the rebels would cause a reaction of sympathy among the warm hearted and emotional people.

This threatened danger appears to be fast materializing.

John Dillon, one of the most respected of the Nationalists, but often one of the bitterest antagonists of British rule, attacked the government in the house of commons in a speech which, for bitter denunciation, has not been surpassed at Westminster since Parnell's days.

Premier Asquith personally has stepped into the breach and is taking the unprecedented course of journeying to Dublin to investigate the situation on the spot and doubtless to give instructions to General Sir John Maxwell.

Premier Asquith urged the Irish in the house of commons to maintain a sense of proportion and not let sympathy for the misled insurgents cause them to forget the deaths of soldiers and civilians.

The chief cause of the attack on the government was the revelation that another execution had occurred—that of a Fermanagh man named Kent—which was the first military execution outside of Dublin.

Dillon Presents Resolution.

The text of the resolution presented by John Dillon is as follows:

"In the interests of peace and good government in Ireland, it is vitally important that the government should make immediately a full statement of their intentions as to continuance of executions in that country carried out as a result of secret military trials, and as to continuance of martial law, military rule and the searches and wholesale arrests now going on in various districts of the country."

Mr. Dillon's motion was voted down without a division.

In speaking on his resolution in the house of commons Mr. Dillon referred to the execution of Thomas Kent in County Cork, saying it looked as though there was a roving commission to carry out these horrible executions.

Mr. Tennant announced there had been fourteen executions, he continued, although the previous figure was twelve.

He asked what people are to believe and added that it is no wonder many view the matter with grave concern, lest another execution has been held back from the premier and may later be brought to light.

WILL PROTEST TO BRITAIN

Supplies for Hospitals of Central Powers Barred.

Washington, May 12.—The American government will protest to Great Britain against its policy of refusing to allow the shipment of hospital supplies by the American Red Cross to Germany and her allies.

Secretary Lansing received a letter from former President Taft, chairman of the central committee of the Red Cross, urging such action.

It was learned the matter will be taken up with the British government soon.

Mr. Taft's letter revealed for the first time Great Britain formally has declined to issue permits for shipments of supplies to the central powers except when intended for American hospital units.

PIONEERS ON PREPAREDNESS

Early Settlers of Minnesota Favor National Movement.

St. Paul, May 12.—Minnesota's pioneers, the men and women who came here in the fifties or thereabouts, who built the commonwealth whose advantages present generations now enjoy, added their voice to national preparedness at the closing session of the nineteenth annual meeting of the Minnesota Territorial Pioneers' association at the old capitol.

E. C. Dunn of Winnebago City, the oldest practicing attorney in Minnesota—he's eighty-two and says he's going to keep his shingle out twenty years more—declared the pioneers who put up cabins beside the Indian teepees believed in preparedness, in the motto "Fear God, but keep your powder dry."

American in Irish Rebellion, and Sir Roger Casement

St. John Gaffney

This photograph shows the close social relation between St. John Gaffney and Sir Roger Casement. The former American consul at Munich is at dinner with the Irish rebel leader and some of their friends. Gaffney is now believed to be under arrest in London on the charge of aiding Casement in his recent plans. It has been intimated that Gaffney was one of the men caught with Casement off the Irish coast.

TAKE THE JUDGMENT OF THE CITY THAT KNOWS HOW CARS ARE BUILT—and the STATE that KNOWS HOW CARS PERFORM!

There's no surer judgment, no more trustworthy advice to be had anywhere than that of Detroit and the State of California.

IN DETROIT the city that produces three-fourths of the country's cars—where people know cars from the technical and manufacturing sides better than they do in any other city on earth—more Studebakers were registered according to official figures in the year of 1915, than any other cars selling at more than \$500.

IN CALIFORNIA the State of wonderful roads and weather—the State where people have more miles of good roads to drive over and more opportunity to use their cars than in any other State in the Union—the official figures for the year of 1915 showed 15,718 Studebakers registered—2,895 MORE than any other car listing at more than \$500.

California KNOWS cars from use on the roads—Detroit knows cars from having the bulk of the industry centered in its limits. Both have made Studebaker favorite by a long lead. What better judgment can YOU follow in buying? And the reason is simply that every time a man makes even the barest comparison of a Studebaker with other cars, he finds that to get as much power, size and quality as a Studebaker offers, he must pay from \$250 to \$100 MORE. So they're buying Studebakers—and SAVING that \$250. Why don't you see the cars—then go make that \$250-saving comparison.

WORK OF THE MUSICAL CLUB

Mrs. W. C. Cobb, Recording Secretary, Tells of Club Activities at Federation Meeting

THE MOST COURAGEOUS ACT

Club Established Itself on a Firmer Basis by Requiring Payments for Tickets in Advance

At the Sixth District Federation of Womens Clubs meeting in Deerwood, Mrs. W. C. Cobb read a very comprehensive and interesting paper revealing the varied activities of the Brainerd Musical club. In her report she said:

"The most courageous thing the Brainerd Musical club has done, since our last district meeting, has been to establish itself on a firmer financial basis by requiring payment in advance for both membership and concert tickets. This has served the double purpose of decreasing the duties of our treasurer, and increasing the funds in our treasury and, to our great surprise, it has not appreciably decreased our membership.

At our annual meeting Feb. 5th, our treasurer reported receipts amounting to considerably more than a thousand dollars, but this did not include the receipts from our last concert, or the fund raised for the purpose of furnishing the community rest room, so our year's budget will come very close to the eleven hundred dollar mark, nearly all of which has been spent for the aesthetic and social welfare of Brainerd.

Of the sums expended away from home, \$80.85 went to carry on the fight against tuberculosis, and \$30 (the amount lacking to complete our apportionment of the state endowment) were added to the sinews of war of the M. F. W. C.

The largest local beneficiary of our bounty, was the public library. This received the proceeds from Lottie Stearns' lecture on "The Problem of Public Leisure," and a much larger revenue from a recital given by one of our talented young singers under the joint auspices of the B. M. C. and the Elks lodge. Besides this lump sum of \$160.00, there were several individual donations of current fiction, one lady donating new books to the amount of \$20.00, from her Xmas sales of tating. The Federation Magazine was also donated to the library where daily library service, possible through the gifts noted above, makes it available to all.

Our Associated Charities did not

receive so much in cash, but more in effort. We assisted in Tag Day, conducted the Red Cross Seal sale, the proceeds from which amounted to \$161.70, and cooperated with the Chamber of Commerce in giving a charity ball. Last but not least, we assisted most strenuously in making Baby Week a splendid success. The commander in chief of this enterprise was our visiting nurse, but Mrs. B. J. Broady, our worthy ex-president, was her first lieutenant. Our new civic chairman, Mrs. G. W. Mosler, was chairman of the committee on sanitary milk, who secured the services of Dr. R. M. Washburn, of the College of Agriculture. The chairman of our Public Health committee, Mrs. J. A. Thabes, was at the head of the registration committee, and so on. Considerable effort was expended this year by the Civic and Social Welfare committees in furnishing our community rest room, cooperating with the council and the Chamber of Commerce in this work. As its name implies, all members of the community and all women strangers within our gates are welcome to use this room. If time hangs heavy on your hands, while waiting for a train in Brainerd, make this room a visit. You will find it in the city hall, on the corner of Fifth and Laurel streets. Here you may read, write or rock, prepare your lunch on an electric stove, take a nap on a sanitary couch and lay your sleeping babe on a sanitary baby's bed.

In another month, you will probably be able to look out upon a sanitary and beautiful flower bed, for by that time there will be children's gardens all over town. This work will be under the supervision of our agricultural teacher in the high school this year, but it was started last year by our social welfare committee. The exhibit of vegetables that was placed in the Chamber of Commerce parlors, as a result of this effort last September, so surprised and delighted the members of that organization that they donated fifty dollars for prizes to encourage this work this year. Our social welfare committee is now soliciting cash prizes for a similar encouragement of flower gardens.

Perhaps you will think, from the foregoing report, that the musical part of our name is a joke, but it isn't. We have given twelve exclusively musical programs (one of which was an exchange program with the Musical Art club of Little Falls) two artist's recitals, and one club treat. The last is a distinction without a difference, being a regular club program given by an artist.

Perhaps the most important thing we have done, musically, has been to give our promising young Symphony orchestra a boost. Cooperating with the Chamber of Commerce, we have formed a Symphony orchestra board which will take entire charge of the

finances of the orchestra, will sell season tickets for its concerts, and solicit supporting memberships in the Symphony Orchestra Corporation.

Our literary section has studied civics this year, covering the county, city, state and judiciary, state and national. Variety was added to this program by talks given by men who were specially prepared to handle their subjects. The topics discussed were: City charter, state primary law, our judiciary, and the federal reserve law. Further variety was added by the convening of a moot legislature which seriously discussed a redistribution of the revenue derived from the gross earnings tax, passed a very closely drawn husband's pension bill, a bill regulating the height above the shoe-tops of women's skirts, bill to provide talcum powder for bald heads, so that those sitting behind them might not have their eyes injured by the glare, and a bill providing for a state commission to pass upon the color and style of men's neckties, said commissioners to be graduates of recognized art schools.

At our election, in February, the term of our efficient young president, Mrs. B. J. Broady, having expired, Mrs. O. H. Johnson was elected president. Although Mrs. Johnson has not been long among us, she has demonstrated her executive ability as our leading hotel and we are hoping and expecting much from her administration.

Respectfully submitted,
MRS. W. C. COBB,
Recording Secretary.

"MOTHER'S DAY"

Emblem of the Day is the White Carnation. Remember Her May 14th

The second Sunday in May is Mother's Day. This year it falls on May 14th. The beautiful thought of setting aside one day in the year to be particularly devoted to one's mother, was first suggested by Miss Anna Jarvis of Philadelphia, who founded the Mother's Day International association to provide the necessary organized support for the fostering of the movement. Thanks largely to her efforts, Mother's Day has become a recognized institution as the day on which each of us should pause to acknowledge our debt of affection and gratitude to "the best mother who ever lived" on which we should be with her if we can and if we unfortunately cannot, should make a point of sending her a message of affection and cheer by wire.

The emblem of the day is the white carnation, and it is the hope of the Mother's Day association that it will respect, not only for his own mother, but also for all the gentle and noble motherhood of the land.

Men are Swamped in Silk this Summer

BY MARGARET MASON
(Written for the United Press)
If you want to be a model man, 'Tis simple goodness knows, Just wear a lot of swaggy togs And strut around and pose.

New York, May 12—Yes 'tis true the worm will turn and this summer the silk worm has turned its efforts from the fair to the sterner sex. It is terribly busy spinning the wherewithal to clothe "me lord" in a stunning silken summer suit. Last year the summer man seemed cool and content in Palm Beach suits of ordinary hempen weave, but this season he sniffs at anything short of silk. Arrayed in Tussore or Pongee, he will lay siege to frail hearts and press his suit after it has been well tubbed. He will undoubtedly owe as much to his laundryman as to his tailor for his success sartorially this season—gratitude, I mean of course, not monies, although perhaps it may be a little of both. The Tussore and Pongee suits are tremendously attractive and also delightfully cool. Many of the best models show coats with pleated backs and half belts. All the boys will vie with belted Earls nowadays, for the belted coat is quite the thing. Not only in the summer silk models but on coats of serge and light weight tweeds. The belted coats of navy serge will be quite smart for country and outing wear with trousers of striped white flannel and will cause many a female heart to surge with admiration.

But after all before, below and above everything, the silk's the thing. Silk shirts of heavy tub silk, striped and designed in the newest yellow, orchid, green and porcelain blue shades are very smart, worn with the soft collars of plain or corded white silk. Among the newest silken scarfs those of small patterned foulard and pastel tinted silk crepe are numbered first in favor. Chastely pure and white are the chosen socks of silk that will adorn the too oft clayey feet of our masculine idols. The white silk sock will show on the best foot forward in either work or play. In other words it will be worn to meet both business and social ends, although for very dressy occasions a fast black sock keeps it more up with festal times. A very smart imported model even goes so far as to show three black clocks, one on each side and one right up the center of the instep. Needless to say, this pair is decidedly striking.

Plenty of silk will be on manly hand also for the silk glove, pearl grey or chamolais colored, stitched in black, will be much worn as well as the glaze kid gloves that have been made to wash as beautifully as the long worn chamolaisette ones.

Verily it seems to portend a busy season indeed for the silk worm and the laundress. Everything being silk and washable, Sylvester may almost safely take his tub attired in full silken regalia. Anyway, there will be as little good excuse for soiled masculine garments this summer as for soiled masculine reputations.

MAY FESTIVAL OF MUSIC

Brainerd Symphony Orchestra to Give Concert Friday Evening, May 26, at Opera House

A May festival of music will be the concert of the Brainerd Symphony orchestra on Friday evening, May 26, at the opera house. The orchestra will have 35 musicians and three soloists will appear.

This is the first concert to be aided by the Brainerd Symphony organization. Next fall, however, will be the first concert to be under the direct auspices of the organization.

A Tribute to Mother

As next Sunday is the 14th of May and the Sabbath set apart as "Mothers Day," this will be appropriately commemorated at the Methodist church. The pastor, Rev. F. W. Hill will deliver a special sermon to mothers on the subject "A Tribute to Motherhood." There will be special music and the church will be decorated for the occasion.

Those who are members and friends of this church are urged to endeavor to have mothers out Sunday morning for this special event. You will be made cordially welcome.

Collecting 1,500 Belgian Orphans

(By United Press)

Paris, May 12—Wanted, 1,500 Belgian war orphans. This is America's latest appeal to battle-scarred Flanders. Rev. John B. de Ville today is heralding it throughout Albert's tiny kingdom. The Belgian-American alliance commissioned the Illinois clergyman to the task. Reports of his progress have reached the French capital. Father de Ville personally is rounding up the great throng of youngsters. Boys and girls, ranging from 2 to 3 to 12 years, are his quests.

Belgians and Belgian-Americans living in the states, have supplied him with the names and probable whereabouts of orphaned nephews, nieces and grandchildren. All now are waiting to gather the little motherless and fatherless chicks under the peaceful shelter of their own wings. Not a few "unhyphenated" Americans are also parties to the charitable enterprise. The clergyman's searches are taking him into city and hamlet. Everywhere he is forced to foot his way into avenue and byroad. War denies him the luxury of either horse or automobile. Fifteen, sixteen and even twenty miles he covers in a single day. Very short and very stout, he puffs along with much effort; but with good old Yankee cheerfulness he makes the best of it. Railroad and ship tickets for the brood already are provided. Father de Ville in person will escort the 1,500 children to America. Afterward, he will supervise their adoption, for the most part in the south and west. War-time works of mercy are not new to Father de Ville. Some months ago he placed 600 Belgian war orphans in childless American homes. Previously he had settled a colony of Belgian farmers and their families in the states.

STATE GEOGRAPHICAL NAMES AND THEIR HISTORICAL SIGNIFICANCE

(Prepared by the Minnesota Historical Society for the United Press)

Kittson County

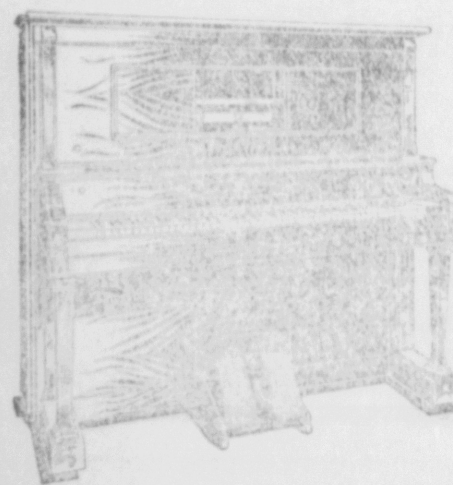

The northwest corner of Minnesota was known as Pembina county until 1875 when it was established as Kittson county in honor of Norman Wolfred Kittson, one of the leading pioneers of St. Paul in 1858. In Canada in 1814, Kittson came to Fort Snelling in 1834 and later took charge of the business of the American Fur company in the northern part of the state. He was a member of the legislature in territorial days and mayor of St. Paul in 1858. For the sixties he organized the Red River Transportation company and established a line of steamers and barges on Red river. His death occurred in 1888. The Catholic cathedral in St. Paul is built on the site of his home.

VICTORY IN PRIMARY

(Melrose Beacon)

As the weeks pass it becomes more and more certain that C. B. Buckman, the Little Falls veteran, will be the republican nominee for congress in this district. Mr. Buckman is experienced, practical and efficient and is without doubt the strongest candidate among the republicans. His opponents are all young and untried and are working against heavy odds. Mr. Buckman has a host of friends throughout the district and unless all signs fail he will have a comparatively easy victory in the primary.

The pipe for relaying the water mains on the streets where paving has been ordered in the business part of the city is being distributed and it is with considerable pleasure that the business houses on Sixth street, and the people of the entire city for that matter, contemplate the comfort of a clean, smooth, thoroughfare through the heart of the city, and the removal of the worn out, "bumpy-bump" conglomeration of mud and cedar blocks that has been a nuisance for several years. With cement paving on these streets the city will take on a vastly improved look, and the improvement will be where every stranger who visits the city

The Greatest Musical Invention

The player-piano is the greatest musical invention of the day. For the player is not purely mechanical, like the phonograph, but makes it possible for any one to play his own music in his own way, with the impress of his own taste and feeling. With the player-piano he can at once obtain results which would otherwise require years of practice.

CABLE-NELSON PLAYER-PIANOS are particularly satisfactory. Not only easy to play, but responsive to every shade of feeling and impulse. They open the door for you to music, song and dance, a reservoir of happiness that you possibly cannot otherwise tap.

will come in contact with it, and there is nothing that gives a stranger a better opinion of a city than good streets well kept.

The mosquito season will soon be at hand, and a little kerosene poured on small sloughs will result in greatly lessening their numbers. The formula used in the Panama canal zone, where the mosquito plague was wiped out and the country made inhabitable at comparatively small expense, was one teaspoonful of kerosene to every square yard of water surface. This much kerosene, applied four times during a season, will destroy the mosquitos before they reach the winged stage. Rain barrels and old cans or other utensils in which water is allowed to stand also afford an ideal breeding place for the insect pests. If care were exercised, the mosquitos could easily be eliminated from any locality entirely.

If as much interest had been taken in saving the waste of timber in the early years that is in evidence at the present time there would not be the scarcity that now exists, and the old saying "one never misses the water till the well runs dry" is applicable. It is estimated by government experts in Washington that 15 per cent of the timber cut in United States every year is wasted, and experiments are now in process to see how much may be saved by utilizing the waste, and even the sawdust, which has been considered useless, can be used in the manufacture of alcohol, and another interesting possibility is the utilization of hydrolyzed sawdust as a carbon-hydrate cattle food.

C. W. Bouck will have opposition in his candidacy for re-election as representative at large from this legislative district, comprising Crow Wing and Morrison counties. Mr. Bouck represents the district at the present time and his filing for the position was followed by that of Milo N. Young, of Swan River, who has been before the people before on several occasions as a legislative candidate. H. A. Rider and L. D. Brown are the only filings for representatives from Morrison county.

The city health commissioner of Minneapolis says that you can blame the high winds of the week for the cold you have. The dust laden high wind is bacteria laden and lodges in the nasal passages and the throat and a cold results. The best preventative in dusty weather is to keep the air passages constantly cleaned. Ker-choo.

Automobile licenses are being issued by the secretary of state at the rate of 500 a day, according to the records of that office, and up to date 162,769 have been placed on record while the total for the year is placed at 125,900. Motorcycle licenses have fallen off to a noticeable extent.

Stearns county has the distinction of having a prohibition candidate for congress, John Knutsen. His name will not appear on the primary ballot as there is no opposition but his name will go on the election ballot in November as the nominee of his party.

U. S. Opens Aero-plane Mail Service

(By United Press)

Washington, May 12.—Bids were opened today by Postmaster General Bureau to decide if the United States shall begin mail-by-aeroplane service on seven routes in Alaska and one in Massachusetts. If the aeroplanes win over the present methods of transporting mail, they must show superior economy in operation as well as better speed.

Advance tips to the postoffice department are that several manufacturers are backing prospective contractors for the routes with the promise of low-priced machines, presumably due to publicity which the stunt would give their planes.

In Alaska, some of the routes for which a change to the air-line is proposed have been carried over various relays by dog-teams, river crews and horse-back. The beat of the mail carriers led over mountains and swift flowing, icy rivers. The airship route would cut straight from starting point to destination, "as the crow flies," regardless of mountain ranges. Rear Admiral Peary is among those interested in seeing the air lines established as a scientific accomplishment.

In the last five years the postoffice department has encouraged a number of aeroplanes mail-carrying stunts, and is disposed, if possible, to make them a regulation part of the service.

HOLLWEG SAYS NOTE HURT GERMAN PRIDE

London, May 12.—What purports to be a summary of the speech of Dr. von Bethmann-Hollweg, the German imperial chancellor, at the secret sitting of the general committee of the reichstag May 5 concerning Germany's reply to America, is published by the Wireless Press. The Wireless Press states the following remarks by the chancellor may be accepted as authentic:

"I have said before that we must drop all sentimentality. With regard to our dispute with America our self-respect was wounded by the aggressive wording of the American note to Germany. Our feelings urged us to repel this interference with our legitimate methods of warfare and tell America to mind her own business, but considerations of policy compel us to subordinate patriotic zeal to patriotic reason.

"We have one aim and one duty, namely, to win the war; therefore, any policy which endangers our victory must be avoided. The overwhelming majority of expert opinion regards a rupture of relations with America as a grave peril."

When Wagner Fled.

Richard Wagner, the composer, was an ardent republican in 1849. In the archives of Dresden there is a document setting forth a case of high treason against the musician. He was accused of having written to a friend a letter proposing to turn Saxony into a republic. "But whom shall we make president?" he asked. "I see nobody competent for the office except our present sovereign, Frederick Augustus II." Frederick Augustus does not seem to have appreciated the humor of the suggestion that he should doff the crown and content himself with the dignity of a republican president. For this dash of unconscious fun Wagner had to bolt to Switzerland.

Not Guilty.

Mr. Gap Johnson of Rumpus Ridge leaned languidly over the top rail of his fence and gazed pensively at a hog lying in the road. A motorcar came skidding down the hill and ran over the recumbent porker. Something went wrong with the mechanism. The car swerved from the highway, plunged down into a considerable hollow and landed wrong side up with the occupants unconscious beneath it. Mr. Johnson presently strode over and looked calmly down into the pit. "Say," he finally called, "you folks don't have to hide under there. That hog was dead when you hit it. The last automobile along killed it, and the feller paid for it."—Exchange.

LOCAL DRUGGIST LANDS RICH PRIZE

Johnson's Pharmacy Awarded the Exclusive Agency for Tanlac in Brainerd

Tanlac, the celebrated medicine that has met with such unprecedented success in thousands of cities, towns and villages in the United States, where it has been introduced in the last year, is now on sale at Johnson's Pharmacy. Mr. Johnson has been awarded the exclusive agency in Brainerd for the Master Medicine, this agency being a business prize that has aroused the most intense rivalry among druggists the country over.

Tanlac is a combination of roots, barks and herbs, gathered in remote parts of the world and blended to produce the best results. Years were spent by Joseph Trembeck, chief chemist at the Tanlac laboratories, Dayton, Ohio, before the present high state of efficiency, that has won renown for Tanlac in many states, had been attained.

Tanlac is called the "Master Medicine," by persons who have used the preparation and have benefited therefrom. It is claimed that Tanlac masters many ailments where other medicines fail.

C. J. Meredith, the renowned Tanlac man, who is personally directing the introduction of the new medicine in Minnesota, is an exponent of modern health precautions. His theory is that most of the ill health of present day Americans is due to those habits which best distinguish civilized man from the jungle savage. Overeating, overdrinking, lack of fresh air, insufficient exercise, are responsible for most of our ailments, he contends.

But, according to Mr. Meredith, it is always possible to remedy these troubles before it is too late. In this connection he is introducing his Master Medicine, Tanlac, which has been declared by thousands to be the most rational and satisfying preparation ever sold in America.

Tanlac, it is claimed, quickly overcomes catarrhal affections of the stomach, nervousness, coughs, colds and the like. Tanlac is now sold exclusively in Brainerd at Johnson's Pharmacy. Advertisement.

NO 4TH OF JULY CELEBRATION

Committee on Thursday Evening in Session at City Hall Decides to Abandon Same

SENTIMENT NOT ENTHUSIASTIC

Tom Mansuras, Manager of Lum Park, Will Provide Fireworks, Ball Game Scheduled

At a meeting of the Fourth of July celebration committee held Thursday evening in the city council chambers, a special committee which had been appointed to sound the sentiment of the merchants and business men of the city whether in favor of a celebration or not reported that very little enthusiasm was displayed by any one in favor of a celebration.

It was stated that in order to hold a celebration that would be a credit to the committee and city, at least \$800 and possibly \$1000 would have to be raised to make any kind of a showing. After considerable discussion it was finally decided to abandon plans for a celebration in 1916.

Tom Mansuras, manager of Lum Park, will provide fireworks and other amusements for the nation's birthday and these together with the ball game will provide some degree of amusement for those not able to leave the city.

BRAINERD'S ODDEST STORY OF TODAY

"You missed the best convention our section ever entertained," said P. A. Gough, speaking to the ubiquitous reporter about the recent federation of women's clubs meeting at Deerwood.

"And you missed hearing a Boston woman, a brainy woman, and deucedly pretty too, give a fine address," continued Mr. Gough.

"That is a rare occurrence," said the man with the pencil.

"Beauty and brains associated in a Boston society bud,"

And then the train pulled out.

The altar society was entertained at the home of Mrs. T. E. Siebenthal by Mrs. Siebenthal and Mrs. L. J. McKenna.

First Receivership Action

The first definite court action, looking to the enforcement of the stockholders' liability in the Duluth-Brainerd Iron company, was had in the probate court of Saint Louis county, in Duluth, this week. After hearing the evidence for four days, the court granted the petition of W. B. Cook, the receiver, to open the estate of T. C. Fitzsimmons, for the purpose of allowing the receiver to file a claim for five thousand dollars against the estate to pay off the creditors of the mining corporation.—Crosby Crucible.

NOTICE

Property owners along the alley between 4th and 5th avenues, Prescott and Kindred streets, will meet in the Northeast Brainerd hose house at 7:30 o'clock Saturday evening to consider lateral sewer for the above described district.

ARCH DEACON VERY SICK

Condition of Archdeacon H. P. Parshall of Cass Lake is Reported Very Critical

(Duluth Herald)

Cass Lake, Minn., May 11.—Reports today from the bedside of Archdeacon H. P. Parshall, who is making a brave fight, are that his condition shows a trifle change for the better over yesterday, as he is resting a shade easier, but it is feared the life of the well-known clergyman is nearing its close.

Inquiries are coming from points all over the Northwest as to his condition, illustrating the high regard in which this well-known and loved Episcopal divine is held.

Northern Minnesota has rarely boasted of a more hard working or devout preacher, and there is gloom here among members of all faiths.

During his trying mission work it is said that he often got along on three hours' sleep and was exposed to all sorts of weather and privations.

His missions cover the greater part of Northern Minnesota, some in the larger cities and villages, but most far out in the wilderness. Several times he has been offered enviable parishes in the large cities, but he refused to accept, stating that he had begun a work and wanted to see it completed.

Rev. Mr. Parshall is a member of a great many lodges, and his presence has often brought a deeper feeling of brotherly love among the members. He is one of the state officers of the Elks, a high Mason and holds offices in almost every lodge to which he belongs.

PARENT-TEACHERS ASSN.

Meeting Held at Harrison School on Thursday Evening, Social Hour Enjoyed

Thursday evening at seven o'clock, the Parent-Teachers association of the Harrison school building, met for its last regular monthly meeting.

A fine banquet was served by the parent members, the tables being beautifully decorated.

After the banquet, a short business meeting was held, followed by a social hour. Short talks were indulged in, in which teachers and parents showed their mutual appreciation of the interest taken in the association.

THE BARBERS PICNIC

Annual Event to take Place at Buff McNaughton's Gull Lake Resort on May 28

There is an air of feverish activity about the local barbers these days. They are getting ready for their annual picnic on May 28, which will be held at Buff McNaughton's pleasant resort at Gull lake.

The trip out will be made in automobiles. The big event of the day will be the pike dinner.

Some Bad Mud Holes

On the road to Brainerd there are three bad mud holes, one this side of Bay Lake and the other two just beyond. Everybody that tries them gets stuck. Among the other victims were L. H. Mattson and G. A. Murphy. Two of the holes could be readily made passable, but one is in a swamp and would be hard to make good in wet weather.

Mr. Mattson says the north road, by way of Riverton, is much better now than the Bay Lake road. He has been over both this week. His new car, a Jackson, can get out almost any place, but one of those mud holes was too much for it.—Ironton News.

HURT IN BATTLE SCENE

Destruction of Mined Village Injures Over a Score of Actors

A score of photoplay actors and several spectators were injured during the making of the William Fox photo-drama, "The Serpent," in New Jersey, which is presented at the Best theatre tonight. The play deals with Russian life and includes several battle scenes.

In order to make the engagements between the Russians and the Ger-

mans as realistic as possible, Director R. A. Walsh employed two military experts to supervise the maneuvers. A large plot of ground was mined and the mines were to be exploded just after a detachment of retreating soldiers had passed over them.

Because of a mistaken signal the man operating the electrical connections opened the switch too soon. In the premature explosion which followed actors, guns, swords and ammunition wagons were hurled several feet into the air. Theda Bara, star of "The Serpent," who was watching the battle scenes, fainted. Ambu-

lances from Fort Lee and surrounding places removed thirteen actors and supernumeraries, whose injuries ranged from lacerations to broken bones.

TOMORROW---TRIANGLE PROGRAM

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet
and fresh inside, and
are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache, or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive, white powder and almost tasteless.

HUNDREDS OF ACRES MUST BE RESEED

Grand Forks, N. D., May 12.—From every section of northern North Dakota and parts of northwestern Minnesota came reports of high winds, blowing out seed grain, wrecking small buildings and blowing down trees and poles. Larimore reports said it was the worst wind and dirt storm of years. Farmers in that section, it is said, will find it necessary to reseed practically all their grain. Reports from points on the Neche, Walhalla and Hannah lines declared that large acreage of the grain were blown away. Drayton and Grafton also report heavy wind storms with great damage to the crop.

BRINGING GERARD'S REPORT

Secretary of American Embassy Leaves for New York.

London, May 12.—Joseph C. Grew, secretary of the American embassy in Berlin, left Copenhagen on the Scandinavian-American line steamer Fredrick VIII. for New York. He is said to be carrying to President Wilson the report of the recent conference between Ambassador Gerard and Emperor William. Grew accompanied Gerard to the Kaiser's headquarters at the front where the conference took place.

WILLIAM A. GARDNER DEAD

Was President of Chicago and North-western Railway.

St. Paul, May 12.—William A. Gardner, president of the Chicago and Northwestern and Omaha railroads, died at his summer home, Wigan, Cape Cod, Mass., according to a message received by close friends in St. Paul.

The message conveying news of Mr. Gardner's death gave no details.

Mr. Gardner had been in failing health for several weeks and had gone to Cape Cod for a rest.

William Alexander Gardner was born March 8, 1858, at Cordner, Ill.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It
Brings Back Its Beautiful
Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Weyth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Weyth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

The Strange Case of Mary Page

The Great McClure Mystery
Story, Written by FRED-
ERICK LEWIS, in Collab-
oration With JOHN T.
MINTYRE, Author of the
Ashton Kirk Detective Stories

Read the Story and See the
Essanay Moving Pictures

Copyright, 1915, by McClure Publications

"I petition the Court," he cried in ringing tones, "to have all the foregoing testimony, together with that of the detective Brennan and the boy Joe Murphy, stricken out as irrelevant. All this is wasting the time of your honor and the gentlemen of the jury. It is not what this man Daniels did but what Mary Page did on the night that James Pollock was brutally murdered with which we are concerned. The State has proved that this woman, Mary Page, entered the room where James Pollock awaited her. That a shot and a scream came from that room, and that the defendant was found in the room with the dead body!"

"And I say," stormed Langdon in response, "that Mary Page neither saw nor heard what occurred in the gray suite that night. And if it please your Honor, I will call as my next witness, Dr. Foster—to testify to the inability of the defendant to understand events that were happening."

"I see no objection to SUCH testimony," said the Judge thoughtfully.

There was a breathless tension in the room when Langdon, addressing his new witness, said vibrantly:

"Dr. Foster, you have told the court that the defendant, Mary Page, is a victim of attacks of 'repressed psychosis,' superinduced by the sight of intoxication, and the smell of alcoholic concoctions. When suffering from such an attack would the patient be conscious of what went on about her?"

"Certainly not. No more than a person in delirium."

A long, quivering gasp of ineffable relief floated from Mary's pale lips at the words, and two little flames of hope and excitement leapt into her eyes.

Even Langdon had seemed at times to cherish vague doubts and had pressed her cruelly to try to remember—even hazily—the events that were a blank to her; and in consequence the words of the great alienist were balm to her aching heart and seemed in truth a wondrous vindication.

Langdon, watching her in amazed concern, saw her slender body shake like a reed in a storm of emotion, and reading in it not the breaking of the icy fetters of impenetrable despair, but the shattering of a wonderful self-control, hastened to her side, with an admonitory and reassuring whisper of encouragement. To his surprise she smiled at him through the unshed tears and caught his hand for an instant in a feverish grip as she murmured tremulously:

"There's nothing the matter, Phil. I—I am just hopeful."

"I may have to call you to the stand for a little," he went on anxiously. "Do you think you—you will be able to?"

"Why, of course," she answered, with such a surprised note in her voice that Langdon was perforce reassured, and turned his attention again towards Dr. Foster, who was flushing angrily under the badgering of the prosecutor.

"What you tell us is very interesting," the latter was saying sarcastically. "And so you followed the life of the defendant, or let us say you traced her life back year by year. And did you decide which event was the direct cause of her—er—peculiar mental breakdowns?"

"I did."

"What was it?"

"Her father's brutality on the night she fled from the house in wild terror. Miss Page had suffered from her horror of alcohol from a baby."

"Then it was her father's treatment, rather than his intoxicated condition, that drove her insane?" persisted the prosecutor; but Dr. Foster saw the drift of the question and shook his head emphatically.

"It was not. It was the sight of his intoxication, and the reek of the whiskey on his breath. The pain of his brutal grip on her shoulder, and the sight of his ill-treatment of her mother naturally had their effect—but they were not the main causes of her delirium."

"How do you know that Mr. Page gripped her shoulder brutally? Isn't that merely hearsay evidence?"

"No. The marks of the hand were plainly visible on the shoulder of Miss Page when she was brought to me. These heavy bruises overlay a curious birthmark that came and went, and the ails of Mr. Page's hand had dug such furrows into the flesh that the scars still remain."

"I have here a copy of this morning's News which has an article in it entitled, 'What is Repressed Psychosis?' by Dr. Foster. Is that your brochure?"

"It is."

"In it you say, 'The cruel grip of

Mary Page's drunken father left its mark indelibly upon her shoulder, for under the stress of intense excitement that mark reappears.' Is that hearsay—or have you seen it?"

"I have seen it."

With a sneer that brought a hot flush of anger surging into the doctor's face, the prosecutor turned and handed the paper that he held to the foreman of the jury saying slurringly:

"Gentlemen of the jury, in this news-paper which I offer as an exhibit for the state, you will find a long article by the learned witness, which is palpably an effort to rouse cheap sympathy for the prisoner. In it he says substantially what he has said in court."

"I said, 'Did you hear a shot?'"

but in both instances, gentlemen, he has failed to prove the truth of what he says."
